linkedin.com/in/joyce-coem
github.com/JoyceCoem
Plumstead, Cape Town

TECHNICAL SKILLS

- C# / .NET
- ASP.NET Core
- Angular
- Python
- JavaScript / jQuery
- HTML5 / CSS3
- SQL
- Git / GitHub
- Azure (Exposure)
- Linux / CLI

NETWORKING

- TCP/IP, OSPF, VLANs
- DNS, SSL/TLS, HTTP(S)
- Wireshark, DHCP

SOFT SKILLS

- Analytical Problem-Solving
- Team Collaboration
- Technical Communication
- Continuous Learning
- Adaptability
- Time Management

INTERESTS

- Web Development
- Network Engineering
- Environmental Conservation
- Literature

PROFESSIONAL SUMMARY

Final-year BSc IT student (Security & Network Engineering) at Eduvos, with a Higher Certificate in Software Development. Seeking to grow as a Graduate Software Engineer. Hands-on experience building web applications using HTML, CSS, JavaScript, jQuery, and SQL, complemented by academic exposure to C#.NET, Angular, and ASP.NET Core. Passionate about clean code, continuous learning, and delivering software that makes a real difference — bringing a collaborative spirit, analytical mindset, and a genuine curiosity for how systems work at every layer of the stack.

EDUCATION

- BSc IT — Security & Network Engineering**
Eduvos, Cape Town
- Feb 2025 – Present (Final Year)
- Higher Certificate in Software Development**
Eduvos, Cape Town
- Feb 2022 – Mar 2023

PROJECTS

- Cisco Packet Tracer — Enterprise Network**
Cisco IOS, VLANs, OSPF, DHCP, WPA2
- Designed a multi-site enterprise network spanning Johannesburg and Luanda with inter-VLAN routing, OSPF dynamic routing, DHCP failover, HSRP redundancy, and WPA2-secured wireless. Validated end-to-end connectivity using diagnostic commands.
- GitHub: github.com/JoyceCoem/cisco-packet-tracer

- Python HTTP Requests Practice**
Python, HTTP, REST API, JSON
- A hands-on exploration of HTTP methods (GET, POST, PUT, DELETE) using Python's requests library — covering status codes, headers, and JSON parsing through real API interaction. Core groundwork for backend and technical support engineering roles.
- GitHub: github.com/JoyceCoem/python-http-requests-practice

EXPERIENCE

- Job Shadow Participant**
Korbistat, Cape Town
- 1–2 July 2026
- Shadowed professionals across Agile delivery, DevOps, QA, Mapping, Innovation, and Content Quality teams.
 - Observed cross-functional collaboration in delivering real-world software solutions.
 - Gained exposure to industry workflows, workplace culture, and software development practices.
 - Built awareness of career pathways and the technical/interpersonal skills required professionally.

- Employability & Academics Member — SRC**
Eduvos, Cape Town
- Dec 2024 – Present
- Bridged student–administration communication and stakeholder engagement.
 - Coordinated events and initiatives, demonstrating project coordination under deadlines.
 - Developed leadership and teamwork skills collaborating with a diverse student body.

- Receptionist**
SOCEARUCO, Kinshasa, D.R. Congo
- Jan 2020 – Apr 2021
- Managed client reception, calls, and appointments in a fast-paced professional environment.
 - Maintained accurate administrative records and strengthened communication skills.

TECHNICAL KNOWLEDGE

Web & Frameworks: HTML5, CSS3, JavaScript (ES6+), jQuery, Angular, ASP.NET Core

Backend & Data: C#.NET, SQL (relational DB design & queries), Azure (coursework)

Networking & Systems: OSI model (L1–L7), DNS, SSL/TLS, HTTP/HTTPS, TCP/IP, VLAN, OSPF; Linux CLI (curl, dig, traceroute, openssl)

Tools: Git & GitHub, Cisco Packet Tracer, Python & Bash (scripting/automation)
